

Château Mayne-Vieil Fronsac

A.B.V.: 14.5%

Varietal

- 100% Merlot

Location/Production

- Since 1918, Château Buisson-Redon has belonged to the SEZE family that also owns Château Mayne-Vieil in the Fronsac AOC. The family has reconstituted the property after world war 1 and is particularly attached to the production of high-quality red wines. The vineyard is grassed, stripped on one side and harvested green for better aeration of the bunches and to reduce the yield.
- The maceration takes place in thermo-regulated stainless steel vats for 3 weeks.
- Aging takes place for 18 months in vats. 10% aged in barrels for 3-4 years in oak in new barrels.

Color, Nose & Palate

- Bright and intense red color.
- Aromas of creamy black fruit and dark coffee.
- Supple, round and long on the palate.
