

## ZERBINA Moscato

A.B.V.: 7%

### Varietal

- 100% Moscato Bianco

### Location/Production

- The vineyards for the Zerbina Moscato are located in the Lombardy region of northern Italy, in an appellation known as Pavia.
- A Maritime climate provides a cooler environment that results in the ideal setting for the Moscato grape to flourish.
- Our vineyards are located on steep hillsides which result in a relatively low overall yield, necessitates hand-picking, and superior finished product.
- Fermentation takes place in a cold tank, which results in a delightful effervescence.

### Color, Nose & Palate

- With a light golden hue, this Moscato has aromas of citrus, green apple, and spice.
- The finish is clean yet satisfying. Pairings range from the savory to fruits and nuts, and it may also be served as a dessert wine.
